COPIES: Executive Staff

Wayne

This is to let you know that WAYNE HOFFMAN is the current rave in Montana.

John Bailey has spoke very highly of Wayne in how he has handled the installation.

With all the problems we have experienced with the KTS installation - missing programs, bugs, inflexibility etc., Wayne has proved to be a true problem solver. Without him, I think John would have truly rejected the package and sent it back. Wayne has not only gone around the problems regarding the software but also shown the customer the POWER OF PICK, thereby giving the customer another comfort base...(therefore TCW can also collect monies owed).

Wayne, thank you for doing a great job. It's not over yet, but keep up the good work.

Joy
